To improve the management of pre-primary education facilities through collaboration with local communities and strengthen the pre-primary education system in the target area.

1. Develop a Pre-primary Education Facility Management Support Book to help community members and Child Protection Workers acquire relevant knowledge and apply it to the management of CBCCs.
2. Develop a Mentor Support Book to help caregivers and primary school teachers acquire relevant knowledge and develop selected participants as mentors.
3. Revise the Caregiver Support Book and provide opportunities for caregivers and primary school teachers to acquire relevant knowledge and skills.
4. Conduct regular monitoring to identify and address challenges related to the management of CBCCs.
